

Workshop on Atmospheric Deposition in East Asia 2013

15-16 July 2013, in Thailand

[Schedule]

Workshop on Atmospheric Deposition in East Asia 2013

Date: 16 July 2013

Venue: Sakaerat Environment Research Station, Nakhon Ratchasima Province

Workshop excursion

Date: 15 July 2013

Study site: Sakaerat Biosphere Reserve, Nakhon Ratchasima Province

[Organizers]

Pojanie Khummongkol

King Mongkut's University of Technology Thonburi, Thailand

Kazuhide Matsuda

Tokyo University of Agriculture and Technology, Japan

[Presentations of the workshop on 16 July 2013]

1. Kazuhide Matsuda, Tokyo University of Agriculture and Technology
"Aerosol dry deposition on forests and its impact"
2. Phuvasa Chanonmuang, Thailand Institute of Scientific and Technological Research,
Ministry of Science and Technology
"Sulfur dioxides and sulfate deposition on a tropical forest in Thailand"
3. Natsumi Kato, Meisei University
"Evaluation of dry deposition inferential method by throughfall and rainfall
measurements in Sakaerat, Thailand"
4. Atsuyuki Sorimachi, Hirosaki University
"Aerosol particle fluxes above a tropical forest in Thailand"
